## About This Game

IN THE 70 DESOLATE YEARS since the horrifying murders chronicled in **The 7th Guest**, the town of Harley has been ominously silent.

Only when journalist Robin Morales vanishes while investigating the rotting abandoned mansion of the legendary toy maker Henry Stauf, do events resurrect a malignant past.

AS ROBIN'S COLLEAGUE and lover, Carl Denning, you come to the ravaged estate to find her. What you uncover in its decaying chambers embroils the entire town in a deadly legacy of madness.

WEAVING A FEATURE-LENGTH, powerfully graphic video through **The 11th Hour: The Sequel to The 7th Guest**, the renowned developers at Trilobyte have created the most cinematic challenge to date. A wide array of games, puzzles and quests cleverly underscores the time-bending, contemporary adult mystery. Only the deepest horrors of the mind could spread such terror in the night.

## FEATURES

- Fully Explore over twenty-two beautifully-rendered rooms with faster, smoother 3-D graphics than ever before.
- Participate in a suspenseful interactive drama directed by David Wheeler, written by **The 7th Guest** author, Matthew Costello, featuring first-rate actors and a new musical score by The Fat Man.
- Solve three CD's worth of diverse and perilous challenges.

- 
- Get on-screen hints instantly with the GameBook, No backtracking necessary.
  - Watch high quality, full motion video without any additional hardware required.

EVERY MOMENT is riddled with intrigue. Three mysterious women are your only guides. Will you find Robin and unearth Stauf's fate at last? Or seal your own forever? It all must come together at **The 11th Hour**.

that game should be on newgrounds, not steam. The ost is nice and the fanbook is lovely, I like the novel and I like these as well.. I LOVE MECH GAMES!. So having to say this hurts. This game needs work. moving and aim should be on either control stick on a game pad. having to aim and move at the same time using only one stick is freaking stupid! In this day and age why can't a game be made with FULL key assign. Deciding I have to my aim and move on the same stick is really annoying. HOW CAN LITTLE SOLDIERS SHOOTING LITTLE GUNS DO. AS. MUCH. DAMAGE. AS. THE. MECHS? How come my allies are dumb like really really dumb. I hate to do this the game gets a thumbs down till you fix your crap.. This is a rather unique point and click puzzle, for the inexpensive price it is enjoyable to work on and it is artistically quite nice. There's a rather mysterious subtext to the game that piques my curiosity.

If you like the screenshots, go ahead and pick it up, especially if on sale.. This is one of the rare horror indie adventure games on Steam that is actually well worth its asking price. There are a lot of choices on Steam for this type of a game, and while I livestreamed this entire game in a single sitting on its launch day here on Steam, it was a very fun and gripping game experience.

I love the HP Lovecraft style of story woven in that you will gradually uncover until the dramatic and satisfying final ending scene. The game has a really well imagined and thought out plot and sequence of how you uncover the secrets within waiting to surprise.. and shock you.

While I've played a good number of these type of games, this game did make me jump at several points, and even had me screaming to hold on to my life as death itself tried to chase me down. ..If only I can run just a little fasterrrr! Runnnnnn! Awesome and exciting moments for sure! ..Mix that with a well imagined and good story that you discover as you explore this beautiful world and you have one helluva game for a small price tag!

Not without faults, this game hard crashed on me 15 times on its launch day, but thankfully the game does frequently auto-save often, and these autosaves take no time at all, and do not make you wait, so neither crash or death in the game will set you very far back. Already on just the day after launch, this single developer has already patched the game to fix the crashes, so this is VERY impressive and a quick response to criticism and bugs within his game. For a developer to respond so quickly and professionally is pure delight and all the more reason I recommend this game and hope that he does very well with this title! I also look forward to any future titles he might bring to Steam with this title and professionalism shown already. Love it!

My score for this game, even with it's minor faults is a strong 8 out of 10. Beautiful graphics, gripping and very enjoyable story make this a high recommend for anyone who likes these types of games.. Bought it for santa claus Arisa in black stockings

I regret nothing. This is a fun game and I like the style but I don't think I have played a live player yet, in three hours play. Playing online and at a differen't time: If you don't get any takers then I think they just set you up with a ai player... The penny only dropped because they all had booze related names like 'tippler' or 'Casanova'... reminds me of 'WORMS' names.. its a good mod. 10/10 This DLC will change your life. Its so much fun

Great little twin stick shooter, controls are precise and the weapon variety between ships lets you find your own favourite play style. Thumping chip-tuney EDM soundtrack and the pulsating lower-poly debris lend a charming atmosphere to the whole thing. Game has already seen two major point releases since launch which have already seen improvements from small tweaks like upping spawn rates in the early game, to impressive new mechanics like unique secondary abilities for the ships. Well worth the couple of bucks! Impressive first outing for this young studio. Excited to see what the future holds for this game and future titles from Guy Bits.

. Unplayable on a Macbook Pro running macOS Sierra. Start buttons aren't detected and game won't go full screen. Super disappointed.. best game ever 11/10 ign, not rage game.

get rekt.. Ah! I didn't hear you come in. You gave me quite a fright!. Amazing thing this. Absolutely amazing, what the Marquis has come up with, don't you think? Absolutely amazing...

Very basic City Builder game with objectives in Campaign mode. It's pretty fun in short one hour bursts. Would have been nice to have a much larger space to build my city in Sandbox mode though. A bit too limiting in that regard. It would be a great game for young children to play to introduce them to city building games. Once they master this game get them to try Sim City 2000 :). Hello fellow servant of our Lord Cthulhu. You are instructed to make friends for our Lord's tea party. No one can resist our charm, they will be our friends soon enough. Do as our Lord commands, buy this game and make friends. Make lots of friends...
